

CLIQ® key-based electronic locking now integrates with Genetec™ Security Center

ASSA ABLOY
Opening Solutions

Integration via the CLIQ Plugin gives anyone using Genetec™ Security Center 5.7 and up even more control. Security Center customers can deploy CLIQ wireless locks and padlocks then control everything from a single, familiar software interface.

With seamless CLIQ integration, a Genetec™ Security Center operator assigns access rules for cardholders granting access to CLIQ locks and enables programming of CLIQ keys with tailored access rules.

Experience a safer
and more open world

As a Genetec™ Security Center user, do you want to expand your access control capabilities? CLIQ offers you...

Now you can: integrate intuitive CLIQ Web Manager software with Genetec™ Security Center and operate your CLIQ locking from the same interface

Solve the lost key problem

Keep existing credentials

Extend access control

Secure wire-free

Install quickly

CLIQ locking system components at a glance:

Software to manage access rights for different users, doors and time periods

Range of programming devices to remotely transfer and update access rights for keys

Programmable, battery powered keys

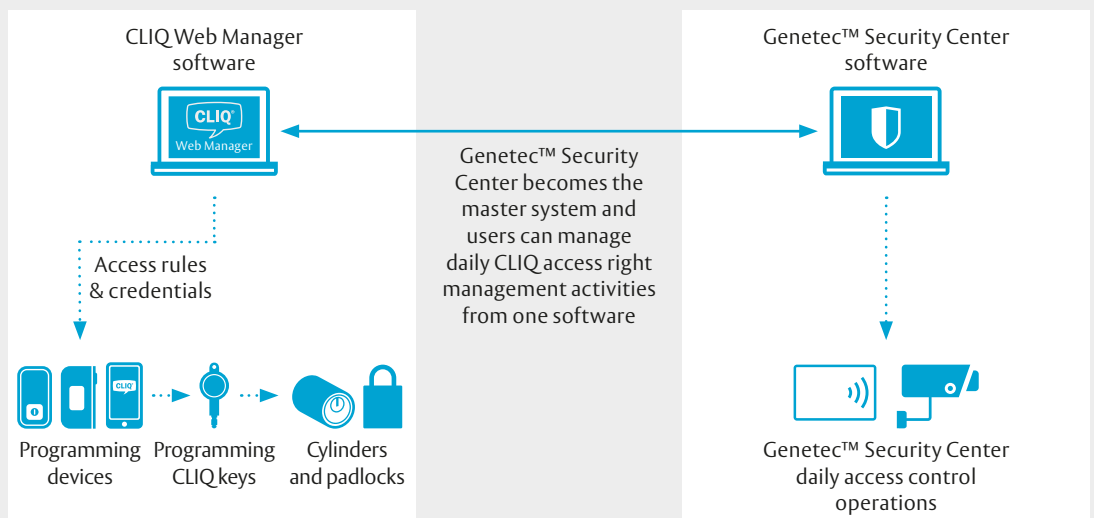

Wide range of programmable cylinders and padlocks to secure different access points

A battery inside each key powers all your electromechanical CLIQ cylinders and padlocks

How the integration between Genetec™ Security Center and CLIQ Web Manager works

Benefits of the integration

- CLIQ keys and locks are imported as entities/credentials in Genetec™ Security Center
- Support for various key modes and blacklisting
- Key activity audits are collected and returned to Genetec™ Security Center to enable proper reporting
- Each key supports configurable revalidation periods to ensure keys need to be revalidated by cardholders
- Genetec™ Security Center access rules are pushed to CLIQ keys when associated with a cardholder

Minimum requirements

ASSA ABLOY

- CLIQ Web Manager 9.1 and onwards
- CLIQ Web Manager integration licenses and certificate

Genetec

- Genetec Security Center 5.7 and onwards
- Genetec CLIQ Plugin
