

Trusted home security and high-grade protection

Protection against cylinder attack

Secure, anti-pick design with 15kN pulling resistance;
5 minutes' drilling resistance;
and bumping resistance (for keyed alike & keyed to differ).

Precision engineered for durability

Hardened, self-lubricating design with corrosion
resistance (96 hours) and lifetime of at least 500,000
lock/unlock cycles.

Certified security accepted by home insurers

Compliant with European standards for home security
and meets the protection requirements for domestic
insurance.

CY110: Unlock your home
the convenient way

Experience a safer
and more open world

Tired of heavy key bunches?
One key now unlocks your home

**CY110 –
a reversible key
for all your locking points**

You no longer waste time looking for the right key. With the CY110, you can open every domestic door — and more — with the same key.

And because the CY110 key is robust, secure and reversible, it turns in the lock first time, every time.

**CY100:
One key, many uses**

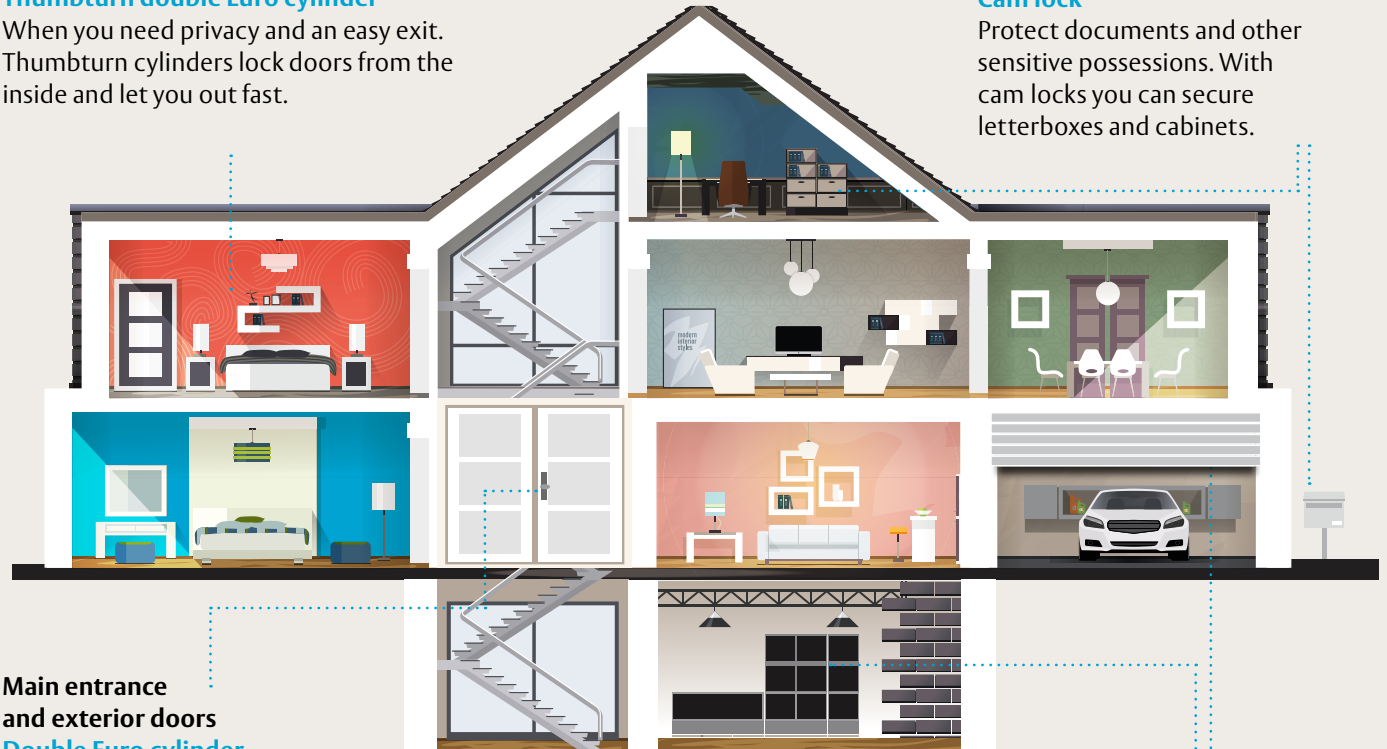

**Bathrooms or master bedrooms
Thumbturn double Euro cylinder**

When you need privacy and an easy exit. Thumbturn cylinders lock doors from the inside and let you out fast.

**Letterboxes or cabinets
Cam lock**

Protect documents and other sensitive possessions. With cam locks you can secure letterboxes and cabinets.

**Main entrance
and exterior doors
Double Euro cylinder
and rim cylinder**

Your main door, of course, needs high security standards plus resistance against weather and temperature. All CY110 cylinders are extraordinarily long-lasting, providing extra protection against physical attacks and meeting important home insurance standards.

**Gates and cellars
Padlock**

Lock almost anything, from garages to storage boxes and even bicycles — and unlock all with the same key.
