

Extend access control to your glass doors

With Aperio® wireless locking devices

Experience a safer
and more open world

Forget about keys

Aperio devices are unlocked by RFID and mobile credentials

Wireless access control for glass doors

*Meeting rooms, office doors or treatment suites:
Almost any glass door can now be equipped
with a wireless access control device*

Aperio C100 electronic cylinder:

The simple glass door solution

It takes just 2 minutes to replace a mechanical cylinder with an Aperio C100 electronic cylinder. ASSA ABLOY offers a choice of locksets for easy combination with Aperio cylinders. Contact your local representative.

**Download case study:
BMCE Bank, Morocco**

No cabling, no design compromises

*Contemporary design without cabling:
Aperio locking devices are battery powered and
seamlessly integrate with any profile of glass door*

Aperio H100 electronic handle:

The stylish glass door solution

The Aperio H100 electronic handle packs the power and flexibility of wireless electronic access control into a slim door handle. Boost security cost-efficiently by just replacing an existing handle with H100*.

* As long as your glass door architectural hardware (handle and rosette) is compliant with one of Aperio's supported standards (DIN, SCAN & FIN) you can replace your handle with an Aperio H100

Three times awarded

by the industry for
innovation, operation and
interior design

"Do not disturb"

Privacy function ensures locking while you are inside

Enjoy the full power of electronic access control

With Aperio, you benefit from all the advantages of wireless access control: Keyless opening, locking status, audit trails and more

Aperio E100 electronic escutcheon: **The feature-rich glass door solution**

Aperio electronic escutcheons incorporate many security features, fire resistance, escape route and EN and DIN standards. Benefit from additional security with PINpad two-factor authentication and privacy function.

To attach an Aperio E100 Electronic Escutcheon to an existing glass door, a special lockcase is required — contact your local ASSA ABLOY representative.

Extend access control to all your doors

Aperio brings wireless access control to all your doors and many other openings, including cupboards, cabinets and server racks

assaaabloyopeningsolutions.com/aperio

No need for an access control system?

ASSA ABLOY's Code Handle adds digital PIN security to any door, including glass doors, without wires or software. Hassle-free protection for equipment and personal belongings
